

# Sure As Spring

La Luz

One thing I've found  
As I've moved around from town to town  
It's so hard to get my blood to settle down  
As sure as spring  
Coats our little piece of land in green  
The turnin' earth takes all of what it brings

(When you were mine)  
Only mine  
(When you were mine)  
I didn't have the time  
(When you were mine)  
Now I kinda wanna die  
And that's the truest way to know that I'm alive

(When you were mine)  
Only mine  
(When you were mine)  
I never had the time  
(When you were mine)  
Now I kinda wanna die  
And that's the truest way to know that I'm alive
