

## What Good Am I?

La Luz

I was only in a dream with you  
I was only in a dream with you  
But it was there that you could see what I always knew

Sometimes I think I wouldn't mind  
Crawlin' off into the woods to die  
What good am I if I can't say what's on my mind?

What good am I if I can't say what's on my mind?  
(Say what's on)  
(Say what's on my mind)
