

Wild Side

La Toya Jackson

Do you wanna get wild with me baby?

I'm living on the edge of reality
I'm changing all the rules of society
That's why they really like to criticize me
Don't believe a thing you hear or see
What's right

Oh yeah
Oh yeah

I'm living on the wild side
I'm living on the wild side, baby
I'm living on the wild side
I'm living on the wild side, baby

I take chances and you know I'm not afraid
When in motion I can cut just like a blade
To do the same thing every day is not my style
'Cause me, myself and I, we love to live it wild y'all

I'm living on the wild side
I'm living on the wild side, baby
I'm living on the wild side
I'm living on the wild side, baby

I'm living on the wild side
I'm living on the wild side, baby
I'm living on the wild side
I'm living on the wild side, baby

Do you wanna get wild?
Do you wanna get wild?

Sometimes I walk the streets very late at night
The moon's vibrations make me feel right
The thrill of danger really turns me on
What's right, what's wrong
