

## Confidence is Sexy

Laakso

I'll start looking at the black spots  
Star-spots, change sides  
Alone with my look to the ground  
Confidence is sexy  
You told me, I see what you mean, but baby I'm sorry  
I'm not the one you're looking for  
I've got different taste, everyday I'll change  
I'm set to random-mode  
I'm fast, I'm slow, I'm always ready go  
Leave me alone  
Running downhill from everything into your arms whoever you are  
Touch me, do me, love me baby  
Kiss me, just don't come near me  
Sunlight hits me like a lightning  
Holds my heart, oh god it's frightening  
Do me, love me, hold me baby

Kiss me, just don't come near me  
Leave me be  
I'll start looking at the black spots  
Star-spots, change sides  
Alone with my look to the ground  
Confidence is sexy  
You told me, I see what you mean, but baby I'm sorry  
I'm not the one you're looking for  
I've got different taste, everyday I'll change  
I'm set to random-mode  
I'm fast, I'm slow, I'm always ready go
