

Emmylou

Laakso

Emmylou, will you join us please
Just one single show, Emmylou
Don't leave us on here all alone

Emmylou, we ain't got no cash
But we sure have soul, Emmylou
Don't leave us on here all alone

All we'll ever need is trying
All we'll ever need is you
All we'll ever need is all you do

Emmylou, it won't happend twice
That we live at the same time
That's why we'd love you on our side

Emmylou, if it works out well
We can go on tour, Emmylou
Just you and these four

All we'll ever need is trying
All we'll ever need is you
All we'll ever need is all you do

All we'll ever need is trying
All we'll ever need is you
All we'll ever need is all you do

Emmylou, only you would do for our duet
It's true, Emmylou
This song is made for you
