

# Healing Force

Laakso

It's a healing force.  
It's our guiding light.  
It's the flood of hope  
That we've been waiting for.

It's a healing force.  
Like a spine it goes  
Through our weaker parts  
That we are learning on. It's a healing force.  
It's our guiding light.  
It's the flood of hope  
That we've been waiting for.

It's a healing force.  
Like a spine it goes  
Through our weaker parts  
That we are learning on.

This is where we put our trust.  
Where we live our dreams  
And where we make believe.  
This is real.  
This is life for real, oh yeah.

It's a healing force.  
We're alone off course.  
Just the two of us  
And the violent touch  
Of lust that connects us,  
That different us.

This is where we put our trust.  
Where we live our dreams  
And where we make believe.  
This is real.  
This is life for real, oh yeah.

Angel,  
I need company  
On my way down to hell.  
This is where we put our trust.  
Where we live our dreams  
And where we make believe.  
This is real.  
This is life for real, oh yeah.

It's a healing force.  
We're alone off course.  
Just the two of us  
And the violent touch  
Of lust that connects us,  
That different us.

This is where we put our trust.  
Where we live our dreams  
And where we make believe.  
This is real.

This is life for real, oh yeah.

Angel,  
I need company  
On my way down to hell.
