

## So Happy, So Sad

Laakso

i came by to say hi  
calling when you want what you need  
call it one last try  
after a few it feels like it used to do  
i even feel a little bit in love with you  
none of us knew that goodbye was for life  
if i know I'm back then  
there would be no next time  
i would have told you what i felt  
what i felt for you  
if i know I'm back then  
that would be the last time  
i would have held you  
never let go of you  
but you never do  
well you wish you do  
i can't stop cause when i do i see what i done  
so i run  
i can't sleep cause when i do i see what i done  
so i run  
last time i saw you  
you were signing your debut book  
and you looked  
so happy, so sad  
said i see you soon  
bubbles rising in your glass  
if i know I'm back then  
there would be no next time  
i would have told you what i felt  
what i felt for you  
if i know I'm back then  
that would be the last time

i would have held you  
never let go of you  
but you never do  
ahhh!  
well you wish you do  
no you never do  
ahhh!  
well you wish you do! do!  
you never do!  
well you wish you do  
if i know I'm back then  
there would be no next time  
i would have told you what i felt  
what i felt for you! you! you!  
if i know I'm back then  
that would be no next time  
i would have held you  
never let go of you  
but you never do  
ahhh!  
well you wish you do  
no, you never do  
ahhh!  
well you wish you do

(you know you never do, well you wish you do)  
(you know you never do, well you wish you do)  
(you know you never do, well you wish you do)  
(you know you never do, well you wish you do)  
(you know you never do, well you wish you do)  
(you know you never do, well you wish you do)  
(you know you never do)  
Well you wish you do! do!  
you never do!  
well you wish you do
