

## All I Know

LAB

I've walked a thousand roads, stories never told  
Fallen down on bended knees, lord help me please  
I need a woman in my life, astro angel, guiding light  
Don't want to be alone  
Lord take me home

Oh oh oh (all I know)  
Can you tell me (all I know)  
Oh oh oh (all I know)  
All I know (all I know)

Oh oh oh (I want love)  
Oh I want your love (I want love)  
Oh oh oh (I want love)  
Can't you tell me (I want love, I want love)

It feels amazing my disco angel baby  
Heart beating on the floor  
Girl dancing, I want more  
It's no rehearse when you move  
Hold my hand because of you  
Higher than I've ever been  
The story in my music dreams

Oh oh oh (all I know)  
Can you tell me (all I know)  
Oh oh oh (all I know)  
All I know (all I know)

Oh oh oh (I want love)  
Oh I want your love (I want love)  
Oh oh oh (I want love)  
Can't you tell me (I want love, I want love)

All I know  
I want love
