Danger

LAB

I can't believe
That this dangerous stranger is
Whispering to me
That his most secret dream is
He wants to belong to me
I can't believe
That this beautiful stranger is
Here for me
He's my end and my angel
And he must belong to me
Can't believe, can't believe
That my heart's in danger
Finally
In danger finally
In danger willingly
And I want my danger
I can't believe
That my beautiful angel is
Whispering to me
Now we have got two hearts
And they both now belong to me
Can't believe, can't believe
That my heart's in danger
Finally

In danger finally
In danger willingly
And I want my danger
My dearest angel
Again you're a stranger
And I am here left without a heart
Be safe my angel
Now you are in danger
The splinters you stole are razor sharp
Can't believe, can't believe
That my heart's in danger
Finally
In danger finally
In danger willingly
And I want my danger
Can't believe (hush now angel rest in danger)
That my heart's in danger
Finally
Can't believe (hush now angel)
Can't believe (rest in danger)
And I want my
And I want my
And I want my danger
