

## Early Bird

LAB

I can see you on the TV screen, babe  
Oh, I can hear you all the time  
No one knows between you and me  
Oh, you are always on my mind

Oh, the joy you bring, baby  
So everybody wants to know your name  
I don't know what it means to be, baby  
So there ain't no crying shame

Oh, I know that the joy you bring  
'Cause everybody wants to know your name  
I can tell when the people sing, mmh  
They are flying your everything

I see the outside, the early spring, yeah  
Oh, the soft through pouring rain, hm  
Take me out so I can breathe, uh  
A ray of light, your everything
