

I Know

LAB

No, no, no, no
I know, I feel in my soul
I'm losing, losing control
I need to know, your flow
Can we take it slow?
I want to see, what you mean to me

I can't see straight
I know, when you feel it
This could be fate, I know

Now that I know, I know
That feel in my soul
This music is taking control
I feel so free, I see
The joy and the glee
My heart, the music in me

I can't see straight
I'm loving the music
This could be fate, I know

Can you believe it, I'm living my life
Got me a reason to pour me some wine
Living a dream, yeah, feeling so fine
We've been achieving time after time
Can you believe it, I'm living my life
Got me a reason to pour me some wine
Living a dream, yeah, feeling so fine
We've been achieving time after time

Cause I can't see straight (I'm mellowed in the music)
This could be fate, I know

I can't see straight, I'm loving the music
