

You're the one, the supernova  
I just want to make you my queen  
No one else will know what we're doing  
I'm loving all the in between  
Didn't take the time to know you  
We took it all too fast too soon  
Couldn't wait to see you, my baby  
I never want this love to end

We just go round & round, I'm waiting for your love  
You think we're phasing in and out, we're like a glove

Everything, leave it on the floor, cause I want it all  
Everything, I don't want to change my mind

Now I know we're here for a reason  
God has only made me for you  
Oh I understand the treason  
Don't care for what they say or do  
Taking me away for the loving  
We can run away in the night  
Now there's no one there behind us  
I'm never giving up this fight

We just go round and round I'm waiting for your love  
You think we're phasing in and out we like a glove  
We just go round and round I'm waiting for your love  
You think we're phasing in and out we like a glove

Woah, oh, oh oh (woah, oh, oh oh)  
Woah, oh, oh oh (woah, oh, oh oh)  
Woah, oh, oh oh (woah, oh, oh oh)  
Everything feels good now baby  
Woah, oh, oh oh (woah, oh, oh oh)  
Woah, oh, oh oh (woah, oh, oh oh)  
Woah, oh, oh oh (woah, oh, oh oh)  
Oh, oh, yeah
