

Like Fire

LAB

Oooh you went on and played up
You went on and
You went on and played up

I know, I know, I know
I know, I know, I know

Yeah, outta control for me baby
I don't know where to go
Do you believe that I'm crazy
I really gotta know
Nobody else can tell me which way
Only you can make me feel good

Like fire (ooooh)
Like fire (ooooh)
Like fire (ooooh)
You went on and played up
Like fire (ooooh)

I know, I know, I know
I know, I know, I know

Give me that baby
Gimme love, gimme that feeling
Got my hands to the ceiling
Taking it higher, causing that fire
Cause and effect, make me not forget
I just want to make you feel love

You went on and played up
You went on and
You went on and played up

I know, I know, I know
I know, I know, I know

Outta control for me baby
I don't know where to go
Do you believe that I'm crazy
I really gotta know
Nobody else can tell me which way
Only you can make it feel good

Like fire (ooooh)
Like fire (ooooh)
Like fire (ooooh)
You went on and played up
Like fire

Like fire
Gimme love, gimme that feeling
I know, I know
Got my hands to the ceiling
Like fire (ooooh)
Causing that fire
I know, I know, oh yeah

Cause and effect, make me not forget, now
Fire, fire, fire
