

Lonely Man

LAB

He walked down the lonely road
Always thinking that he owned the land
Walking over everything
Think it's time the devil got his hand
"Sign the contract, am I clear
Do you understand the rules I lay?"
He looked in the devil's eyes
And all his problems gone away today

You see the lonely days are gone
Hear it in my song
I had trouble in my life but now it's gone away
I can see the sunlight rising, heading over me
Think my life is going my own way, oh yeah
See the devil gave me everything

Everything is closing in
Cause I'm living in a life of shame
Devil gave him everything
Woman, money, cars, power and fame
I don't know how to escape the game
Wish I never met him on that day
Now it's taking over me
And I can feel the demons call my name

You see the money days are gone
Hear it in my song
I had power in my life but now it's gone away
I can see the demons crawling, coming after me
I'm alone, I think I'm going insane, oh no
Oh the devil's gonna break you down

You see the lonely days are gone
Hear it in my song
I had trouble in my life but now it's gone away
I can see the sunlight rising, heading over me
Think my life is going my own way, oh yeah

Ooh, lonely man
Ooh, lonely man
Ooh, lonely man
Ooh, lonely man

Ooh, lonely man
Ooh, lonely man
Ooh, lonely man
Ooh, lonely man
