

# Never Give Up

LAB

I get feelings for no reasons  
When I hear you breathing makes me hit the ceiling  
See you in the corner, I just wanna hold ya  
Can I do it to you?

Cause I just want to make you mine  
If I told you my thoughts would you give it time?  
Don't believe everything people say about me, baby  
Cause I know what I would do, when we fooling around just me and you  
Moving on the dance floor, rubbing you down like crazy  
Oh, and I will take that chance to never ever let a man take my command  
Cause I want you til the morning sun  
I will never give up

You can be my memory  
Everything I want to be  
Girl you know it's you and me  
Take me on that ecstasy  
You can be my memory  
Everything I want to be  
Girl you know it's you and me  
Take me on that ecstasy

I know you know baby  
You know I know maybe  
We can be one lazing sitting in the sun  
Now I know that we are one  
Cause we're moving along sitting in the sun  
Rolling along, you can call me out my baby  
Cause I know what I would do, when we fooling around just me and you  
Moving on the dance floor, rubbing you down like crazy  
I will take that chance to never ever let a man take my command  
Cause I want you til the morning sun  
I will never give up

You can be my memory  
Everything I want to be  
Girl you know it's you and me  
Take me on that ecstasy  
You can be my memory  
Everything I want to be  
Girl you know it's you and me  
Take me on that ecstasy

I know you know baby  
You know I know maybe  
We can be one lazing sitting in the sun  
I know you know baby  
You know I know maybe  
We can be one lazing sitting in the sun

You can be my memory  
Everything I want to be  
Girl you know it's you and me  
Take me on that ecstasy  
I will never give up
