# Ocean Demon

**LAB**

I can reveal it, I can show
The days of old, we were young, things were never slow
We partied through the night, drinking beers, smoke weed
It was a life, no regrets, we were living free, yeah, yeah

Life was a hoot, I could live rent free
End of a knife like it used to be
We took a dive with the ocean demons
We took a ride, life was oh so beaming
Lived in the edge like an open book
Ate everything, all the things we took
Oh, to be free, oh no, no, no

See now moving and a-grooving is how I live
I'ma taking everything, that's a way to live
(Living in a world of fantasy)
I make mistakes, that's the way we grow
Nobody's perfect, you can't fool a fool

Stand in the shoes of a man that's doing
Run to the sun like a runner moves
We got to move with the blows, let's do it
I'm like a flag on a pole, can't move it
Oh, when I hear all the voices sing
Just like the wings of a bird that brings
All that I do is do it for you

And now I'm rocking and a-rolling, and I can't deny
I was that man, many woman, yes, I was that guy
Dancing and a-singing till the sun woke up
I could dance, making love, doing all above, yeah, yeah

Stand in the shoes of a man that's doing
Run to the sun like a runner's moving
We got to move with the blows, let's do it
I'm like a flag on a pole, can't move
Oh, when I hear all the voices sing
Just like the wings of a bird that brings
It made us re-realise we're living
We never take, we was always giving

Now that I know that I live my life
Giving a shit for the ones who strive
I got a pad, pen and paper, reading
My past life, how I hit the ceiling
Let me remind you for how I live
Lived a good life that I want to give
Give it to you, oh, I know

Drums on the bass, dancing place
Smoking all day til my eyes go red
Give it up, give it up, hell no way
You won't change the way I play
Every day's high when I want to say
Losing my high, losing the way
Can you feel it? No irie
Mr. Police, Mr. Correct
