

Oh Honey

LAB

Ooooh honey
Don't leave me please
Give me time, to make amends
Oh honey
I can't believe, no
Oh that guy, that other man

Can you see me, yeah
See I'm working, yeah
But your eyes look over me
Now I'm feeling like you don't want no more
But in time, love will play its course

Ooooooh money
I have nothing
But my heart for you is rich
See I know knowing
But what you believe
I work hard for you and me

Ohh, he has everything, yeah, a man could ever dream
But I know, I'll be there
I'm working so hard my body hurts
But it's you that plays my curse, yeah

Oh honey, it's you and me, yes it is
Thank you lord, for hearing me
Oh money, we got it all
I can feel you
You next to me
Next to me
Next to me
Next to me
Ohh
