

## Personify

LAB

I get told all the time  
To leave it at the door  
If all of the stars align  
This is what I'm gonna do

Oh I'm staying on the high ground  
I won't ever go down  
I can take you on a feeling  
Make you all believe me

I can hold off the line  
Tell me and I'll do  
And now that the stars align  
I know what I've gotta do

Oh I'm standing on the high ground  
I won't ever go down  
I can tell that it's a feeling  
Now you all believe me

Personify, you're everything  
It's in your eyes, it's the way you sing  
I can see to be the free  
I just need the feeling  
You know I'm right, it's everything  
It's in your eyes, the way you sing  
I can see it's heavenly  
I just want that feeling

Personify, you're everything  
It's in your eyes, it's the way you sing  
I can see to be the free  
I just need the feeling  
You know I'm right, it's everything  
It's in your eyes, the way you sing  
I can see it's heavenly  
I just want that feeling

Oh I'm standing on the high ground  
I won't ever go down  
I can tell you that it's a feeling  
Now you all believe me
