

Rocketship

LAB

Oh no, no
Let's be on a rocket ship
Because I'm higher, can you see me in the air?
It's not hard to believe it
I'll take you on a ride
We're leaving
Hold yourself on to me
We can move through the world hand in hand
Nobody can control this feeling

Take my hand
Light me up
Show me what is real

Oh, I know the meaning of moving through to outer space
In our hearts I believe we can do it
Nobody can control it
Take me on that high
That feeling of loving in a world that's free
In my heart's where I hold what I'm feeling
Nobody can control it

Take my hand
Light me up
Show me what is real

Oh no, no
Place me on a rocket ship
Because I'm higher, can you see me in the air?
It's not hard to believe it
Take me on that high
That feeling
Hold yourself on to me
We can move through the world hand in hand
Nobody can control this feeling

Take my hand
Light me up
Show me what is real

Take my hand
And light me up
Show me what is real
