

I see it on the screens, surrounding me  
A distant dream, that's where I wanna be  
Wake up everyday, keep me in the race  
Now I know what it means, gotta make my way  
Working so hard, just to get to you  
Fortune and fame, I'll see it through  
And now it's in your head, already said  
So now you're with the crew oh tell me, the shadows  
Who am I to walk in your fame  
Only one step to when I walk behind, now I realise the game  
In the shadows, I know

Third gear, now I know I got a reset  
Got no money now, it's overhead  
Fast car, sleeping in the backseat  
My last chance, I'll burn and see  
All that I love is leaving, gotta get back that feeling  
And now we realise, he's out of time  
A man with a plan but none in the shadows  
Who am I, I walked in the fame  
Give another chance, keep me in the game  
Oh I can't pay my way, in your shadow  
Who am I, I walked in the fame  
Give another chance, keep me in the game  
Oh I can't pay my way, in the shadows, I said I know

Third gear, now I know I got a reset  
Got no money now, it's overhead  
Fast car, seeping in the backseat  
My last chance, I'll burn and see  
All that I love is leaving, gotta get back that feeling  
And now we realise, he's out of time, a man with a plan but none in the shadows  
The past I walked in the fame  
Couldn't get by till I road that line, now it's all gone again  
In the shadows, the past I walked in the fame  
Couldn't get by till I road that line, now it's all gone again  
In the shadows
