

# Shoot On You

LAB

I made the landing on my own two feet  
My understanding on that day we meet  
I'm gonna find you, yes I'll find a way  
I'm right behind you, boy I'm here to stay  
You're on the run, yeah hey  
I'm gonna pull up my gun, gonna shoot on you

I'm standing facing, with the enemy  
Boy can you hear me, 'cause it's you and me  
You took my baby, yes you took her life  
Now I've gone crazy, boy you're gonna die  
You're on the run, and she's gone  
I'm gonna pull out my gun, gonna shoot on you

Don't need no apologies, gonna take life your away, gonna shoot  
on you  
Now that I'm crazy, cause the life you took away, gonna shoot o  
n you

And I want my baby, (my baby), but she's gone (what you gonna d  
o)  
Pull out my gun, gonna shoot on you

Don't need no apologies, gonna take your life away, gonna shoot  
on you  
Now I've gone crazy, 'cause the life you took away, gonna shoot  
on you  
And I want my baby, (my baby), but she's gone (what you gonna d  
o)  
Pull out my gun gonna shoot on you
