So you're gonna be taken, babe  
Walk in the street like a superstar  
The crazy things you'll see  
Watch your feelings, oh it's time to change

See all around the world, they'll be singing along  
To catastrophe romance  
Whatever you make, your fantasy  
Make sure it's not a song and dance

Singing now, hey  
You're invisible  
And there's nothing that you won't do  
Come on baby you don't see  
What all of this is going to mean for you

Until I die

He's gonna reach out and break you down  
Drag you by the feet, leave you dead on the floor  
Make you or break you  
Wanna check your reasons, 'cause it's gone too far

See all around the world, they'll be singing along  
To catastrophe romance  
Whatever you make, your fantasy  
Make sure it's not a song and dance

She's got to fight all the people through town  
Come on baby you don't see  
What all of this is going to mean for you  
Yeah, she wants your
