

## Torture For Two

LAB

I wish you'd still talk to me  
so I know I can still hear,  
Touch me  
so I know you're still here.

So hold me 'till I'm stronger,  
strong enough to leave,  
Or stay 'till I'm stronger,  
strong enough to mend.

I wish you'll still walk with me  
so i know that I can still stand,  
Look at me  
so I know that I'm still here.

So hold me 'till im stronger,  
strong enough to leave,  
Or stay 'till I'm stronger  
strong enough to mend.

And we can end, just end,  
just end this torture for two,  
We are good, you're good, you're good as good as me.

So lets end, just end, just end this torture for two,  
We are good, you're good, you're good

You're good,  
You're good,  
You're good as good as me (2x)

I wish you'll still hold me,  
so I know we're still here.
