

Trying To Catch Me

LAB

I can't see the stars, the moon
Take me back when I was new
Reaching past the sky above
Oh, I know my luck is up
Wonder if a storm will fall

Trying to test me
'Cause I know I'm out of here
Jenny, will you come ride with me?
Do you believe me?
Can I take you by my side?
We can go walking through the stars

My eyes are closed so I can feel
Falling stars lay by my heels
Makes me feel like I'm a boss
Can I get that far for you
Oh I know I'm riding high

Trying to test me
'Cause I know I'm out of here
Jenny, will you come ride with me?
Do you believe me?
Can I take you by my side?
We can go walking through the stars

Trying to test me
'Cause I know I'm out of here
Jenny, will you come ride with me?
Do you believe me?
Can I take you by my side?
We can go walking through the stars
