

Candlelight

Labelle

When you touch me I feel something
And it's something that I never felt before
It's an aching deep inside me
And it makes me, makes me want you more and more

And if you...
If you leave out your candlelight, I'll be coming for you tonight
If you leave out your candlelight, let me shine on you tonight
All through the night
If you leave out your candlelight I'll be coming for you tonight
I'll come through the night

If I make it, let's stay forever and ever and forever
Cause that is what I'm looking for
In the darkness we'll be the fire
And let our feelings light our way behind the door

So if you...
If you leave out your candlelight, I'll be coming for you tonight
If you leave out your candlelight, let me shine on you tonight
All through the night
If you leave out your candlelight, I'll be coming for you tonight
I'll come through the night

When you touch me I feel something
(You know the girl. She in love. She need someone.)
And it's something, yes, yes
It's an aching deep inside me
(You know the girl. She in love. She need someone.)
And it makes me...oh, oh, oh
(You know the girl. She in love. She need someone.)
If I make it, let's stay forever and ever and ever and ever
(You know the girl. She in love. She need someone.)
In the darkness we'll be the fire
And let our feelings, yes
Shine
Shine, shine, shine..

(You know the girl. She in love. She need someone.)
Yes, oh the girl's in love
(You know the girl. She in love. She need someone.)
Yes, yes, yes she do
(You know the girl. She in love. She need someone.)
She needs someone who gonna love her right
(You know the girl. She in love. She need someone.)
Yes, ooh, yes
I want you to shine, yes
Shine, shine, shine, shine
Come on and come on, shine, shine

If you leave out your candlelight, I'll be coming for you tonight
Oh, oh yes I will
If you leave out your candlelight, let me shine on you tonight
Shine all through the night
If you leave out your candlelight, I'll be coming for you tonight
Yes, I will
If you leave out your candlelight, let me shine on you tonight

If you leave out your candlelight, I'll be coming for you tonight
Yes, leave, oh, your candlelight
If you leave out your candlelight, let me shine on you tonight
Yes, yes, I'll make you feel
Hey, make you feel real
Yes, I will...
