

Come with me
If you believe
Come with me
If you believe
The phases of the moon
Are changing much too soon
We'll be devoured by the sun
And if you find me there
Protect the love we shared
Pretend you never cared and carry on
And sing the song
Come with me
If you believe
Chameleon sing and pray
That they will see the day
That night falls
And colors set them free
It's such a crazy game
(if you believe)
Your sighs, your face, your name
Determines who's the same
Should we make believe
That I do believe
That I've been deceived?

We lived on distant shores
Until we yearned for more
Opened our hidden doors and followed through
Now that we've seen your light
We know the time's not right
Chameleons seek the night before the dawn

I do believe
That I've been deceived

I do believe
That I've been deceived
Come with me
If you believe in the magical world
If you believe in the magical world
