

# Phoenix

Labelle

Dance the blues  
See how she dances  
To bring us the news  
See how she dances  
Ashes and news  
See how she dances  
Rise from the blues

The amazing flight of a lone star  
Just like heaven and hell reaches so very far  
Wrapped up in pages of yesterday's news  
Sings with the devil and dances the blues  
In her red dress, she dances the blues  
Races the dawn to bring us the news  
Now that I'm here, I'll tell you the news  
Come on, sing the news  
We've all got to go like we've come  
Before or after the sun  
A single string guitar  
Plays the amazing flight of a lone star  
See how she dances  
Ashes and news

You were tired of waiting in the shadows  
Hiding thoughts of new ways in old Mason jars  
Sweet on the edges but much more inside  
Running in races, never using the prize  
Now open your eyes (rise Phoenix) and  
Dance the blues (rise Phoenix)  
Now that I'm here I'll tell you the news  
Come on, sing the news

We've all got to go like we've come  
Before or after the sun  
And if you believe in the one  
You'd be living the one life God's given

We've all got to go like we've come  
Before or after the sun

A single string guitar  
Plays the amazing flight of a lone star

Then Phoenix  
Then Phoenix...
