

## Time & Love

Labelle

Winter froze the river  
And winter birds don't sing  
So winter makes you shiver  
So time's gonna bring you spring

Now he swears, he'll never marry  
Says that cuddles are a curse  
Just tell him plain you're on the next train  
If love don't get there first

Time and love everybody, time and love  
Nothing cures like time and love  
Don't let the devil fool you  
Here comes a dove

Nothing cures like time and love  
Love for the man if you please  
If you think and if you can

Winter froze, time and love  
Jesus wasn't angel  
And mankind broke His wing  
But Jesus gave His lifeline  
So sacred bells could sing

Now, a woman is a fighter  
Gather white or African  
Oh, a woman is a woman, inside  
Has miracles for men

Time and love, everybody, time and love  
Nothing cures like time and love  
Don't let the devil fool you  
Here comes a dove

Nothing cures like time and love  
Time and love, oh, time and love  
Yeah, time and time, and time  
Nothing cures like time and love

Time and love, oh, time and love  
Yeah, time and time, and time  
Nothing cures like time and love
