

# Touch Me All Over

Labelle

Talkin' to myself ain't no remedy  
I need you right now  
Here to comfort me  
I've been down so long  
I need someone who's strong  
To lift me up  
So, baby, if you don't mind  
If you don't mind

Touch me all over  
Make me smile again  
Touch me all over  
Leave me weak and I'll be content  
Touch me all over  
Baby, if you don't mind  
I'm in need

Empty hours pass as I wait in vain  
Thoughts enter my mind  
And feed the rising flame  
As the feeling grows  
I need someone so  
To lift me up  
So, baby, if you don't mind  
If you don't mind

In and out I keep going  
Through open doors, never knowing  
What faceless chance I might take  
Or if I'll ever make a mistake

I've been down so long  
I need someone who's strong  
To lift me up  
So, baby, if you don't mind

Touch me all over  
Make me smile again  
Touch me all over  
Leave me weak and I'll be content  
Touch me all over  
Oh baby, if you don't mind  
I'm in need

Come on and  
Touch me all over  
Make me smile, please  
Touch me all over  
Leave me weak , oh baby  
Touch me all over  
Oh, baby, if you don't mind  
I'm in need
