

Dreamer

Labi Siffre

Dreamer, dream away the night
When you wake I will be here
To greet you with the light

Dream on, the moon is on the wane
When you wake we will be here
The sun to light the way
Me here to love you

And how we spin and how we turn
And now we lose and now we learn
And now we win and now we're burning
Dream on dreamer
When you wake you will be loved

Rainbow, colours of the light
Brightly paint a warning
To the clouds upon the heights
Sorrow, please be gone away
I have no time to fight you now
The dreamer wakes
I made a vow to love her

And how we spin and how we turn
And now we lose and now we learn
And now we win and now we're burning
Dream on dreamer
When you wake you will be loved

Slow motion smile, oh the dawn breaks
Blinking your eyes, oh oh oh my heart aches
Slowly you rise, oh my arms take
Touching inside, oh oh oh

Dreamer, the love I want to say
Words in mind so hard to find
My heart gets in the way
Dream on, the night and through the day
See the light, the dream is clear
When you wake I will be here to love you

And how we spin and how we turn
And now we lose and now we learn
And now we win and now we're burning
Dream on dreamer
When you wake you will be loved

Dreamer (dream on dreamer) dream away the night
