

If You Have Faith

Labi Siffre

If you have faith
If you have faith
If you have faith
Well, that's all you need
And if you believe
And if you believe
And if you believe
Well, that's all you need
And if the road you're on
Seems much too long
You can carry on
You can carry on

Cause if you have faith
If you have faith
If you have faith
Well, that's all you need
And if you can try
If you can try
If you can try
Well, you may succeed
And if you have hope
If you have hope
If you have hope
Well, that's all you need

And though we're not so sure
What we're here for
You need nothing more
You need nothing more
Cause if you have faith
If you have faith
If you have faith
Well, that's all you need

If you get tired
And feel that it's time to give in
Cause you think of the times when you lost
And you thought you might win
Open you mind, take it all
Think for a while, you'll find a way
Don't be afraid, lift up your chin
You'll find the strength

If you have faith
If you have faith
If you have faith
Well, that's all you need
That's all you need
That's all you need
If you have faith
