

Interlude

Labi Siffre

Filling in time
Doing my best not to lose my mind
Be still
Don't upset yourself
She'll be here very soon With a smile on her face and love in her heart

It's been days since we met
I'll never forget the joys at the start

The door bell will ring
I'll open the door and I'll feel just like singing
When she's here the world is my friend
There have been other girls
And often I've thought 'This one's for me'
But nothing like this
It seems that I've missed what love really should be

Seems that she's late
Nevertheless I'll wait and I'll wait
She'll arrive
We'll laugh and be glad
She'll be here I know
She said so and I'll never doubt her word

Night time's around
I think I'll lie down and wait
And wait
And wait
