

Nothing In The World Like Love

Labi Siffre

There's nothing in the world like love
It's a feeling you can never get tired of
If you start right away
Well believe what I say
You could brighten your day

There's nothing in the world like love
People say it's what the world is made of
Well I don't know about that
But it's a natural fact
That love is where it's at

Just look at you now
You're fighting with your back to the wall
In a great big city
That you don't know at all
Now you're more than frightened
'Cause the city just grew
If you don't find someone
It's quittings for you

Let me help you let me try
Let me love you till I die
That's all I want to do
If you love me tell me now
Don't be sacred I'll show you how
That's what I want to do
Now that we've found one another
Oh how lucky we are
There are people right here in the city
Who will never never meet
The one they would love
It's more than a pity

There's nothing in the world like love
There is nothing that will ever be instead of
It's more than a fling
It's more than a ring
It's everything

There's nothing in the world like love
It's the sort of thing that makes you kind of
