

# Odds And Ends

Labi Siffre

(1, 2, 3, 4)

Summer day in autumn  
The pink is in the sky  
The grass is gently waving  
To the colors on high

And I am way back home  
I've been away too long  
And you are waiting there for me  
And home is where I belong

A fly is buzzing round my head  
I'll get it if I can  
The fly was sent from over there  
To inconvenience men

And man is from I don't know where  
To inconvenience nature  
But have no fear, our mother near  
Gives

Funny how when you think you've got it all  
You haven't got a friend  
Funny how when you think you've got it all  
It ends

Lazy seabird gliding by  
Searching for a morsel  
Tell me seabird when you die  
Will you become immortal

And tell me why the world to me  
Is like an angry puzzle  
Is it just the same for you  
Let's buy the world a muzzle

Listen to the radio  
Listen to the music  
It seems the world is now a bomb  
And we just lit the fuse

Now listen to your own DJ  
He tells you life is swinging  
Disaster or a laughing voice  
I wonder who is winning

Funny how when you think you've got it all  
You haven't got a friend  
Funny how when you think you've got it all  
It ends
