

Remember My Song

Labi Siffre

When I die
I want to be
With someone I love
Who loves me
And when I'm gone
Please don't be sad
Just think of the good times we had

When I wasn't there alone
My father and mother
I was their pride 'n joy
I bet I'm older
They still love me so?
That's something I need to know

I've seen the sun rise
And I've kissed the rain
I've left the people
That I'll never see again
You've been beside me
In sadness and joy
Now we are three
It's a baby boy

When I die
I want you to know
My live has been happy
I pray of the soul
And if you think of me
After I'm gone
Remember me smiling
Remember my song

Well I've seen the sun rise
And I've kissed the rain
And I've left the people
That I'll never see again
And you've been beside me
In sadness and joy
Now we are three
It's a baby boy

When I die
I want you to know
My live has been happy
I pray of the soul
And if you think of me
After I'm gone
Remember me smiling
Remember my song
