

Turn On Your Love

Labi Siffre

Fireside, you hold a hand, and you feel alright
See the glow, can you feel the light?
Nobody near us, no one to hear us, now ah-woman

Eyes wide, I can see your smile, can you see me grin?
Don't you know, you're the sweetest thing?
People I've seen through, they should've been you, now ah-woman

Turn on your love
Turn on your love
Turn on your love (I want you to)
Turn on your love
Now ah-woman, getting warmer all the time

Take me, I may be wrong and I may be right
But we agree so we don't have to fight
Nothing is easy, turn off the TV, now ah-woman

Thank you, for being you, you're a work of art
You're the song, and I play the part
So glad I found you, 'cause I'm bound to, now ah-woman

Turn on your love
Turn on your love
Turn on your love (I want you to)
Turn on your love
Now ah-woman, getting warmer all the time

Turn on your love, it will make you feel good
Make you feel like you should, make you be alright
Turn on your love, it will make you feel free
Make you feel just like me, make you feel so fine
