I get nervous when you're not here
It hasn't even been that long
But I'm thinking about you again

I like your voice
That stayed by my side
That tickled my ear

Tell me louder
From where I am
I can't hear you

Even if you're not by my side
So I can feel you right away

Tell me you love me

When our body heat touches
When our lips touch

An unknown scent
Makes my heart flutter so much

When our eyes meet
When our hearts meet
Your familiar scent

Spreads all over me
Spreads all over my body

I get nervous without you

I get nervous when you're not here
I can't even last a day
All day, I think about you

How you stayed by my side
And looked at me with a smile
I like all of it

Come closer
From where I am right now

I can't see your eyes

Even after several nights
So I can hear you

Tell me you love me

When our body heat touches
When our lips touch
An unknown scent
Makes my heart flutter so much

When our eyes meet
When our hearts meet
Your familiar scent

Spreads all over me
Spreads all over my body

In this lost time
My heart is empty
Only you can fill it up, only you

I can't believe that I'm saying these things either
Only you can make me do this

When our body heat touches
When our lips touch

The stars in the night sky
Shine and fall on us

When our eyes meet
When our hearts meet

Your thickened scent
Spreads all over me
Spreads all over my body
