

## Covering

Labrinth

Mm, my candlelight  
Burnin' up like Palo Santo through the night  
You, you're by my side  
Feelin' like my four-leaf clover every time

Don't let go  
You could be my sa-, my savin' grace  
Now go float  
Turnin' to the sky got me feelin' invisible

Like a charm 'round my neck  
Like a prayer, prayer to protect  
Feels like something's in the air  
And it's watchin' all my steps  
Oh, I feel you coverin' all over me  
I feel you coverin' all over me, oh no  
I feel the love and it's all over me  
Pick me in the dark when you're all over me, oh, oh-oh

Mm, now I feel safe  
Under your protection, your sacred embrace  
Love is God, baby, love is God, baby  
Feel the whole universe in your arms, baby, yeah  
And I'm 'bout to go to space

So don't let go  
You know you're my sa-, my savin' grace  
Now go float  
Turnin' to the sky got me feelin' sensational

Like a charm 'round my neck  
Like a prayer, prayer to protect  
Feels like something's in the air  
And it's watchin' all my steps  
Oh, I feel you coverin' all over me  
I feel you coverin' all over me, oh no  
I feel the love and it's all over me  
Pick me in the dark when you're all over me, oh, oh-oh
