

## Elliot's Song

Labrinth

I've got no place  
Buildin' you a rocket up to outer space  
I watch you fade  
Keeping the lights on in this forsaken place

Little star  
Feels like you fell right on my head  
Gave you away to the wind  
I hope it was worth it in the end

Us against the world  
Just a couple sinners makin' fun of hell  
If I keep you here  
I'll only be doing this for myself

Little star  
Feels like you fell right on my head  
Gave you away to the wind  
I hope it was worth it in the end

I know this thing is broken  
So I leave my door wide open  
Been some time since we've spoken  
One day we'll meet again

Little star  
Feels like you fell right on my head  
Gave you away to the wind  
I hope it was worth it in the end

You and my guitar  
I think you may be my only friend  
I gave it all to see you shine again  
I hope it was worth it in the end  
I hope it was worth it in the end
