

The Feels

Labrinth

I got hit by a truck, I got hit by a truck
And it drove off and left me here for dead
A long night here cryin' in the rain, yeah

I got touched by God and it fucked me up
Like an electrical current crossing through my veins
Lightning, come and hit me again

I'm in my feels, way up in the clouds somewhere now
Don't know what's real, real
I'm lost, gone missin', I don't even know if I'm there now
But I'm in my feels, feels

Feels

Now you got me lost in emotion
Now you got me intoxicated with your drug
Bloodstream racin', heartbeat pulsin'
The truth of it is I'm in love with you, oh

Oh, I got touched by (God and it fucked me up)
Like an electrical current pulsin' through my veins
(Lightning, come and hit me again)

I'm in my feels, way up in the clouds somewhere now
Don't know what's real, real
I'm lost, gone missin', I don't even know if I'm there now
I'm in my feels, feels

Feels

Feels

(In my) Feels

(I'm in my) Feels

(I'm in my) Feels
