

# Thief

Lacey Sturm

There's a thief in your head  
Trying to claim his space  
But it isn't his house  
So take your place  
There's a liar inside  
Trying to gain your trust  
But it ends tonight  
Cause we're falling in love

Stay here with me  
You never have to leave  
Love cost me everything  
So tell him shut up, get back, shut up  
For you I fight  
Defend you day and night  
Love cost me everything  
So get up, speak up, sing out, shout out

So where is his throne  
To hold you down  
Kill you?... So what  
Cause I raise the dead  
He threatens pain  
But suffering  
Is what I've done  
In the name of love

Stay here with me  
You never have to leave  
Love cost me everything  
So tell him shut up, get back, shut up  
For you I fight  
Defend you day and night  
Love cost me everything  
So get up, speak up, sing out, shout out

Stay here with me  
You never have to leave  
Love cost me everything  
So tell him shut up, get back, shut up  
For you I fight  
Defend you day and night  
Love cost me everything  
So get up, speak up, sing out, shout out
