

# The Daughter Of Coldness

Lacrimosa

I behave like any human  
Trying to keep in balance  
But - oh for how long?  
You are my harbour - my aim  
No one can give me what you do  
Please remember - I have been changing

I'm no longer the daughter of coldness  
I came from far away to stay

Let me be your - your home and fortress  
You are so close to my heart  
Can't live without your love

I'm no longer the daughter of coldness  
I came from far away to stay  
I'm no longer the daughter of coldness  
I just wanna stay with you

The beauty is deep inside you  
The strength you have  
Is in you

I'm no longer the daughter of coldness  
I just wanna stay with you
