

Turn To A Little 3rd Rate Romance

Lacy J. Dalton

You can have it if you want it
All you gotta do is take her hand
Better grab it if you want it
It's a good-time offer for a one-night stand

Hey, if because she's everybody's funny
It's just a case of time and circumstance
If you want to, her love is turning funny

You might wanna turn to a little third-rate romance
Turn to a little third-rate romance
First time you might turn away from your temptation
Second time, you might take a chance

Turn to a little third-rate romance
Turn to a little third-rate romance

You can have it 'fore they ask him
You can have the entire show for free
Just a little of impassion
Who knows where the night will lead?

Don't wait some kind of fatal type of traction
Your long life's there in a sorry dance
If you would get me off this air of action

You might turn to a little third-rate romance
Turn to a little third-rate romance
First time you might turn away from your temptation
Second time, you might take a chance

Turn to a little third-rate romance
Turn to a little third-rate romance

So what? "She's a woman being easy"
Hey, easy's just a judgement, call you fine
You better watch out who it is you're calling sleazy
You might find yourself slip-sliding sometimes

Turn to a little third-rate romance
Turn to a little third-rate romance
First time you might turn away from your temptation
Second time, you might take a chance

And turn to a little third-rate romance
Turn to a little third-rate romance
Turn to a little third-rate romance
