

What Don't Kill Ya!

Lacy J. Dalton

Sometimes you're right
Sometimes you're wrong
You make mistakes but you go on
And somehow I just won't stay long
And what don't kill you makes you strong

Sweet love is here
And then it's gone
Sometimes the pain goes on and on
Remember things when love goes wrong
Honey, what don't kill you makes you strong

It ain't over
Till it's over
Till the fat lady sings her closing song
If you don't give up and you don't back down
What don't kill you makes you strong

Don't matter what they tell
It don't help to place the blame
Just keeps you stuck there in your foolish pride
Better get on with it
Bite the bullet, take the pain
If you do, I promise, you'll survive

You might be old
You might be young
It's the same old game for everyone
Well, sometimes life just comes undone
And what don't kill you makes you strong

Makes you strong
Makes you strong
Makes you strong
Makes you strong
