

## Compose

LADIPOE

Got the city going up when we dey touchdown  
Pray my two feet go never touch ground  
Yeah, another party in my compound  
They way you bend it make a nigga feel like Runtown

Ballerina  
Body moving like a ballerina  
Then we sk skrr in the Panamera  
Know say when you party with me you need stamina

Body bad o Michael Jackson  
Body bad don't need a caption  
Make she no unleash the dragon  
Fit to start a chain reaction

Odo  
You wan make my head explode  
I say a prayer on my knees and toes  
As I see you, I dey compose  
No be say I no wan do the most  
So if you feel me make I know  
Before I start to carry overload  
Cause you wan make my head explode  
I say a prayer on my knees and toes

Whenever dem see me for the streets  
They be hailing me and struggling to speak  
I just leave them in the breeze  
Baby are you coming when we leave  
All I ask is that you hold on to your wig  
Cause the temperature is peak

Se tan come dey bounce on me  
And if you get wahala  
Ko gbe soun kan  
Girl no worry  
I dey I dey

Know say oil dey my head  
E dey show for the dreads  
E dey show for your body  
Girl the closer you get  
Still I keep it compose  
Fine boy no dey beg  
But you turning me into a bomb threat  
I swear

Odo  
You wan make my head explode  
I say a prayer on my knees and toes  
As I see you, I dey compose  
No be say I no wan do the most  
So if you feel me make I know  
Before I start to carry overload  
Cause you wan make my head explode  
I say a prayer on my knees and toes

Odo

You wan make my head explode

I say a prayer on my knees and toes

As I see you, I dey compose

No be say I no wan do the most

So if you feel me make I know

Before I start to carry overload

Cause you wan make my head explode

I say a prayer on my knees and toes
