

# One Step Closer

LADIPOE

I dey run from my ex  
The way she dey do me  
You would think she was Messi  
How she's passing it to me  
Baby, stop it the way you whining that o  
Should make me reconsider but wahala ti sun mi  
Still I can't hold back when she's closer  
Make me wanna slip inside her DM like some loafers  
I know it's complicated why can't we say it's over  
You think you're independent but it's second of October, aren't we passed that?  
I know that you feel me  
Timaya pulled me to the side and told me ukwu go kill me  
Yeah, I feel the pleasure in the pain jor  
On some shit I can't explain jor

So lovely, but dangerous  
I want it, I hate it  
Don't leave me, don't love me  
Just, pull me one step closer  
It's crazy, I'm falling  
Amazing, bad for me  
Don't leave me, don't love me  
Just, pull me one step closer next to you

(Right next  
Next to you  
Right next  
Pull me one step closer)

Baba e wa n le, Mama e wa n le  
I should come in and dobale, but I picked you at the gate  
I swear I got some manners, but I struggle to behave  
Especially when you put that thing in my face, well  
Baby none of that now  
She don't wanna back down  
Told her not to go there  
But it's in my lap now  
Why you so nosey, see you looking back now  
Watching me watching you watch us go off track now  
Isn't she!  
Girl, you drive me crazy  
The way you turn a no into a yes, fuck a maybe  
Wait don't move a muscle o and please don't swallow

So lovely, but dangerous  
I want it, I hate it  
Don't leave me, don't love me  
Just, pull me one step closer  
It's crazy, I'm falling  
Amazing, bad for me  
Don't leave me, don't love me  
Just, pull me one step closer next to you

(Right next  
Next to you  
Right next

Pull me one step closer)
