# Red Light

**LADIPOE**

She go dey denge
She go dey pose
My boyfriend is here, she one of those
Is it by force to let me know with that small waist somehow you carry a heav
y load
Like ooo
That small boy club, I'm no member
Single till your man comes home around December
Say you wanna leave
I know you gonna stay, coz money can buy trophies, tell it to Arsene Wenger
What she told me
You know I had a man but he couldn't control me
I was a good girl, but it's getting lonely
You say you got it all, baby, put it on me, on me
Ha... I'm P.O.E
Parked outside when you ready to leave
Heard you got a guy but it don't concern me
We about to take off, can I take it off please
Baby, what you say

Don't wanna wait for the green light
I'm gonna move on the red light
Don't wanna wait for the right time
I want it all on the first night
I want it all
I want it all

You make a good girl bad o
You make a good girl bad
You see the ting I put pon your snap o
Baby, I want it like that
I want it all
I want it all

Remember

Now she's on her worst behavior
Good girl gone bad, she could use a savior
Always had a taste for your type before
You know I like my women hot you're the perfect flavor
Woo...
Got all that? Dinner's on me
See them playing the part, but they really aren't me
Ever pull us apart they could need an army
So baby, take it to church can I get an amin?
Heart beat racing no time wasting
You know I love skirts coz I'm so impatient
Can't slow down cos she likes me chasing
See this good girl making bad girl faces, but...
It's P.O.E
Parked outside when you ready to leave
Heard you gotta guy but it don't concern me
So she pulled me to the side like what's it going be

What you say?
What you say?

Don't wanna wait for the green light
I'm gonna move on the red light
Don't wanna wait for the right time
I want it all on the first night
I want it all
I want it all

You make a good girl bad o
You make a good girl bad
You see the ting I put pon your snap o
Baby, I want it like that
I want it all
I want it all

Don't wanna wait for the green light
Move on the red light
Don't wanna wait for the right time
I want to fuck on the first night
I want it all
I want it all

You make a good girl bad o
Aww, make a good girl bad
The ting I put pon your snap o
I want it like that

Yeah, yeah
I, I want it like that
The ting I put pon your snap o
I want it like that

FB on the beat like
