

Win Win

LADIPOE

I got some blood in my eye
I see the love and the lies
I see the people that you're looking up to
Looking for a different disguise

I got a piece of the pie
I want a piece of your pie
I see some people spending Arab money
Though they've never been to Dubai

Middle finger to the sky
That's a political sign
Kanye went crazy
I might just maybe

I know it's a side effect
Of fake love, all the fake love
I can't stand the taste of
I'm doing this for the sake of

Day one's (Of course)
TAP (Of course)
Yeah man (Of course)
Mainland (Of course)
No light (Of course)
On gen (Of course)
Amen (Of course)
Win-win (By force)

I've gotten better since the Genesis
It's funny when people say deh-veh-lope
Showing love to all my relatives
With money inside of an envelope

Do I want to be another dot beside another dot inside a telescope?
Or do I want to be the biggest independent star to get to sign Davido?

LOL (Of course)
Big dreams (Of course)
Drip, drip (Of course)
Chop life (Of course)
No light (Of course)
On gen (Of course)
Amen (Of course)
Win-win (By force)

Getting caught up in the wave now
God and money are the same now
I learned to drive in Lagos City so you know
I'm never sticking to my lane, now
We never bothered to explain how
Only spark up, spark up
Gotta mark up, mark up
Money by any means now

You hustle like me, that's a fallacy
Hungry as me when my daily bread

Based on much more than just waiting for salary
Now that I'm ready to eat
You better start watching your calories
Save your blessings for your allergies
What I won't do for my sanity
What I would do for my family

Life ain't easy but still we all want shout zaga that
Life is too short and we still want more life after that
I'd rather greet police before I need an ambulance
So when this shit comes on I show them, show them how to dance

Shut down (Of course)
Show time (Of course)
Sold out (Of course)
Gang, gang (Of course)
Long live (Of course)
All night (Of course)
Your girlfriend (Of course)
On time (Of course)

LOL (Of course)
Big dreams (Of course)
Drip, drip (Of course)
Chop life (Of course)
No light (Of course)
We on gen (Of course)
Amen (Of course)
Win-win (By force)

Life ain't easy but still we all want shout zaga that
Life is too short and we still want more life after that
