

## In Waves

Lady A

Whoa, yeah

The fact that we've been done for months has got nothin' to do with it

But if you text me to come over, you know that I'd probably go through with it

'Cause if I'm being up front, you're always in the back of my head, baby

And I only feel the cold when I slide to your side of the bed

I ain't sayin' it's all the time

It's more like only every other lonely night

Washes over me like an ocean tide

Guess what I'm tryin' to say

The missin' you comes in waves

The missin' you

Missin' you comes in waves

Do you ever catch yourself lookin' through pictures you should delete? Yeah

And do you ever get to feelin' that we could still be what we used to be?

'Cause, baby, on a good day, I'm good at gettin' over you (Ooh)

But on most days, you kinda crash into me outta the blue (When I'm missin' you)

Oh, I ain't sayin' it's all the time

It's more like only every other lonely night

Washes over me like an ocean tide

Guess what I'm tryin' to say

The missin' you comes in waves

The missin' you, the missin' you

Oh, the missin' you comes in waves

When the sun goes down on this Gulf Coast town

I'm missin' you, oh

When the whiskey hits and it burns like this

I'm missin' you, oh

I ain't sayin' it's all the time

It's more like only every other lonely night

Washes over me like an ocean tide

Guess what I'm tryin' to say

The missin' you comes in waves

The missin' you, missin' you

The missin' you comes in waves

Ooh

Oh, oh
