Lady A

Ooh

There's a four by six of a sunset kiss
And one of you laughing at me catching my first fish
One on Valentine's Day
With a mariachi band at our favorite place

Yeah, we sure looked happy in pictures
The camera doesn't show the way it hurts
No, that ain't the way I remember it happening
In between the flashes it was sad, it was tragic
Yeah, we sure looked happy in pictures

There's one on my phone that I can't erase
But you'd never know by the smile on my face
That inside I was dying, later that night I'd be crying
The last one before goodbye

Yeah, we sure looked happy in pictures
The camera doesn't show the way it hurts
No, that ain't the way I remember it happening
In between the flashes it was sad, it was tragic
Yeah, we sure looked happy in pictures

Oh, oh

No photo evidence, not a single proof
Of all the hell that we went through

But, damn we sure looked happy in pictures
The camera doesn't show the way it hurts
No, that ain't the way I remember it happening
In between the flashes it was sad, it was tragic
Yeah, we sure looked happy in pictures

So happy, so happy in pictures, yes we did
Yeah, we sure looked happy in pictures
So happy, so happy in pictures
